Product will expire in 2026

Product having reached maximum appreciation

* Annual return is calculated assuming the investment is held until maturity.

** Although the return displayed on the basket may be negative or higher than the maximum potential return of the variable-yield component, the return used to calculate the return on the investment may not be lower than the guaranteed minimum return or higher than the maximum return of the variable-yield component.

Product will expire in 2026

Product having reached maximum appreciation

* Annual return is calculated assuming the investment is held until maturity.

** Although the return displayed on the basket may be negative or higher than the maximum potential return of the variable-yield component, the return used to calculate the return on the investment may not be lower than the guaranteed minimum return or higher than the maximum return of the variable-yield component.
